

Text Message Notification

In addition to your standard notification by phone or email, you can get texts.

Login to your account and click your name in the upper right corner, and then click the Edit Account button. Enter your phone number in the mobile settings area and check the opt-in box. Submit. When you receive a text message to confirm, reply by typing "yes."

Important things to remember:

- If you have a library card, you automatically have an account that is accessible online. There are no additional setup steps required.
- Different UHLS member libraries may have different lending and renewal policies. Keep this in mind when renewing items.
- Library cards expire every three years regardless of usage. This helps to ensure current contact information. If you are unable to access your account online and you know your PIN is correct, this may be why. Stop by any UHLS library to renew your card.
- For security purposes, it is recommended that you change your PIN at your earliest convenience.

Lost PIN?

If you lose your PIN, we will be unable to provide it over the phone, as our software will not even share your PIN with staff members. By default, your PIN is the last 4 digits of the phone number we have on file for you. However, if you have changed your PIN or your phone number, this may not be the case. Please visit a library and be prepared to present both your library card and picture ID to reset your PIN. We appreciate your understanding.
